Preview of Downloading Instructions

<ol style="list-style-type: none"> You will be sent an email with download instructions. The instructions take you to a webpage for the 2008 conference recordings. Each recording is listed as a separate download. Press the download link to download a recording. What happens next will depend on your computer's settings. Your computer may open a window asking if you want to play or save the file. Or your computer may begin playing the recording. If the Windows Media Player opens and begins playing the file, you can save the file by going to the File/Save As menu. You can download all of the recordings or select which ones you want to download.
